## SUMMARY

Recent B.Sc. Computer Science graduate with a strong academic background in programming, databases, and computer applications. Enthusiastic about starting a career in the IT industry, with good analytical skills, attention to detail, and a willingness to learn and adapt to new technologies.

## WORK EXPERIENCE

### DigiSuraksha | Internship

Apr 2025 – May 2025

- Performed vulnerability assessment and security testing in Linux environments.
- Worked with networking concepts while solving TryHackMe labs.
- Documented vulnerabilities and technical findings.
- Improved troubleshooting and analytical skills through practical cybersecurity exercises.

## PROJECTS

### PIANO FOR ALL

- Developed a responsive piano learning website with an interactive virtual piano.
- Implemented JavaScript-based scale playback to help users practice musical scales.
- Designed responsive and interactive UI using modern web dev techniques.
- Technologies: HTML5, CSS3, JavaScript, Flexbox, CSS Grid
- **GitHub:** <https://github.com/vedteli/PianoForAll>

## EDUCATION

### Bachelor of Science in Computer Science

CGPA: 8.79

- Mumbai University, March 2026

Percentage: 72%

### Bifocal Computer Science (HSC)

- Ratnam College (Bhandup), March 2023

## SKILLS

- **Programming Languages:** Python, Javascript, SQL
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Data Skills:** Data Entry, Data Validation, Documentation, Basic Data Analysis
- **Spreadsheet:** Microsoft Excel (Sorting, Filtering, Basic Formulas)
- **Tools:** Microsoft Excel, Git, GitHub, Postman, Vs Code

## SOFT SKILLS

Adaptability | Self-motivated | Teamwork | Critical Thinking

## CERTIFICATIONS

- **Artificial Intelligence Fundamentals** | IBM

2026
